Abstract: Provide a concise summary of the research problem, objectives, methods, principal findings, and conclusion. The abstract must not exceed 300 words. Do not include citations, tables, figures, or unexplained abbreviations.

Keywords: Keyword 1; Keyword 2; Keyword 3; Keyword 4; Keyword 5

1. Introduction

State the background, research gap, objectives, and contribution of the study.

2. Literature Review

Summarize relevant studies and clearly identify how this work advances existing knowledge.

3. Materials and Methods

Describe the study design, specimens or datasets, instruments, procedures, and analysis methods in enough detail for replication.

4. Results

Present findings clearly. Number all tables and figures in the order in which they appear.

5. Discussion

Interpret the results, compare them with prior research, and explain their scientific significance and limitations.

6. Conclusion

Summarize the main contribution, practical implications, limitations, and future research directions.

7. Acknowledgements

Recognize funding agencies, facilities, and contributors who do not meet authorship criteria.

8. Conflict of Interest

Declare all competing interests, or write: The authors declare no conflict of interest.

9. References

Use one consistent reference style. Include DOI links whenever available. Verify that every reference is cited in the manuscript and every in-text citation appears in the reference list.
